The staff, students and administration extend sincere appreciation to the Mattapoisett Land Trust and specifically to Mr. and Mrs. David Hewitt for their efforts on behalf of the Mattapoisett Public Schools. Their continued support of our school programs is an excellent example of the benefits that can accrue as a result of a close working relationship between school and community agencies.

Jamie Shepley Fund

The Committee is deeply grateful for the response of the people of this community to the overwhelming financial needs of the Shepley family. We wish to thank all who have made a contribution. We have received approximately 450 gifts in these first three weeks.

The initial response to our appeal was threefold: The printing of the letters, supplying of stationery, cards and envelopes, without charge, by the Hiller Printing Company; the addressing of the letters and mailing costs provided by the Mattapoisett Woman's Club; and a generous incentive contribution of \$2,000 by the Mattapoisett Lions Club.

You will remember that in our appeal we

did not set a goal - we knew that the cost of hospital care, equipment and rehabilitation services would be out of our range. But we knew the people of this community would want to help. So far, we have received approximately fourteen thousand dollars. Last week we received a gift from one of our servicemen in Oklahoma - he had heard about our fund and sent us twenty dollars - and a note - "I wish that I could give twenty times this amount". Most of us wish we could give more, but all of us can give something. Have you responded to this appeal? We have a courageous young man and his family who need the reassurance which can come from you. Send us your gift! And again, our thanks to those who already have given. The Committee

The Good News is...

Editorial, D.C.J.

A few years back a most unlikely story appeared in the form of a short novel and became a runaway best seller. It was unlikely because on the surface the hero was a raucous coastal bird. Beneath the surface, however, the story delved much deeper. It was about flight. It concerned a soaring, climbing spirit on the wing. People who hadn't read a novel in years picked up and read this one about a sea gull named Jonathan. The human condition is such that we starve for simple spiritual triumph.

We are in an age of greed. Selfish grabbing fills our daily news. Selfish grantsmanship obsesses politicians who play the game of we'll get ours now and let the future pick up the tab. You would think that under this barrage we would all lose our perspective. You might think that we would not retain the ability to admire spirits soaring. Yet, amid all the grabbing, the consuming, the mortgaging of the generation ahead, unsung workers are working to conserve, to save the earth, to preserve natural beauty, to pass on to the future - creatures threatened by the overwhelming presence of mankind. What may be important twenty to fifty years from now is not what federal grant was grabbed but what open space was preserved and what natural

beauty remains to delight the eye and the soul of the generation ahead.

This whole thought stems from the fact that Jamie Shepley returned to Old Rochester on Friday. His tragic accident has left this young man severely limited physically but who know the limits, if any, of the mind and spirit. The Shepley family is conservatism in action. Jim Shepley has, for years, worked in Mattapoisett conservation. His services were generously donated to the good of this community today and especially tomorrow. Conservatives, conservationists are often disparaged as people without vision and lacking capacity for vigorous action. Nothing could be further from the truth. Vision is the ability to

look ahead and plan for others. Vigorous action is best done under control so as not to destroy what exists that is good and fine. Jamie could wish for no better atmosphere to support his progress. Welcome back!

'Evening with Thoreau'

"CLEAR SKY, PURE LIGHT"

"Clear Sky, Pure Light", An Evening with Henry David Thoreau, a dramatic monologue on Thoreau's thoughts performed by Christopher Childs, actor and playwright, will be sponsored by the Marion Mothers' Club on April 7th at 7:30 P.M. in the Old Rochester Regional Auditorium. A reception will follow. Proceeds will go to the 1979 Scholarship Fund, awarded to a graduating O.R.R.H.S. (Marion) senior. Tickets are available at The Bookstall, Browne Pharmacy, Marion; Mattapoisett Pharmacy and Jay's Pharmacy, Wareham. They will also be available at the door. For more information call 748-2812 or 748-1007.

Rochester 300

The March Rochester 300 meeting was held in the Conference Room at the Town Hall with many interested residents in attendance. Chairman Conrad Bernier read more letters from invited dignitaries, accepting the invitation to participate in the parade on July 22. Rochester, Pennsylvania will send a representative, and one hostess volunteered her home for his quarters. Other hostesses will be needed, and interested prospective hostesses are asked to contact the committee.

In other business:

King Lion Rene Rivet reported on the plans for the parade, and that the applications are mailed out. Anyone inadvertently left off the mailing list, and desiring an entry in the parade, may obtain a form from Mr. Rivet or pick one up at the Town Hall in Rochester, Mattapoisett, Marion or Acushnet.

Woman's Club President Nancylee Gaucher reported on progress in plans for the Tricentennial Ball which will be March 31 with music by "The Travelers", and authentic Colonial food. The Royal 4th Artillery will provide escort.

The Royal Artillery will encamp in Rochester Center on the 6th, 7th and 8th of July, not the dates previously mentioned. There are tentative plans for an in-costume church service that Sunday.

The Woman's Club Historical Society Play will be presented on July 15th and 22nd, which is somewhat different than previously announced. Tryouts will be announced shortly.

Sippican Rod and Gun Club will present a "Charity Shoot". This shoot, at the club grounds on Dexter Lane, will be open to the public, will be for shot guns and twenty twos, and the proceeds will go to the recently established "Rochester 300" Fund. The Charity Shoot will be on April 8 and later in April, on the 29th, will be another shoot, this time a "Trophy Shoot" for twenty-twos only. The public is invited to both.

School will be presented by the Rochester Girl Scouts, with the help of the Rochester Police Department. Parents: your child will learn a lot and have fun too, with bicycle contests and safety.

April 22 is the Kite Festival. Old Rochester Regional ball fields are the site for this grand afternoon of kite flying. There is no fee involved, just come with your kite and have fun. There are prizes for homemade kites in five categories: biggest, prettiest, most original, most aeronautical, and best of show.

Judges are volunteers from the communities - if you are interested in becoming one we'd like to hear from you. Please call Mrs. James Gurney at 763-5531.

In case of rain, the Kite Festival will be the following Sunday. Remember you are welcome to fly any kite at all, but only homemade ones, not from kits, are eligible for prizes.

Many people have expressed interest in decorating their homes with bunting for the parade. The Committee suggests that they might like to order their bunting with the Committee, in order to get the best rates with a group purchase-rental. Anyone interested may contact the committee or Harry Brown.

HISTORIC ROCHESTER HOMES PHOTOGRAPHED

On Sunday, March 18, over twenty-five Rochester homes were photographed as part of the historic resources survey being conducted by the Rochester Historical Commission. Ms. Hilda Peirce of Boston volunteered to take the pictures. Ms. Peirce will be photographing approximately fifteen more buildings on a future weekend.

Several years ago, almost fifty historic homes and sites were researched and placed on file at the Massachusetts Historical Commission. The addition of forty more sites will complete the survey and allow the Rochester Historical Commission to nominate particularly significant buildings to the National Register of Historic Places. No restrictions are placed on the owners of properties included in the survey or placed on the National Register.

A list of the photographed homes will be available in April. Interested homeowners or Rochester residents willing to research the histories of these buildings

Delta Kappa Gamma

Psi Chapter of Delta Kappa Gamma Society International recently held a winter meeting in the Millicent Library in Fairhaven. After the business meeting, conducted by President Miss Bette Ann Tripp, an interesting and informative program was presented.

Miss Patricia Mello explained her work as a Prescriptive Teacher in the New Bedford school system. She presented the picture "Those Other Kids", giving a dramatic true presentation of work being done with skilled persons and children in need of special care and instruction.

Mrs. Doreen Nelsen of Mattapoisett, a music teacher in the Wareham school system, explained using music with special needs children in the elementary grades.

The evening closed with a social period.

Let us give your car a Spring
Check-Up and Service!

Be Ready for
SPRING
MOTORING

This may be a carefree time of year, but it's no time to be carefree about your car. Between inflation and the oil situation, there has never been a more important time to treat your car to an exhaustive check-up. Lacking power? Low mileage? Find out why . . . or just make sure there are no problems in store for you, particularly after winter driving. Be sure!

ored crafts and designs. Included will be Nantucket and Mattapoisett woven bags, scrimshaw, restored and caned furniture, decoupage, quilts, and braided and hooked rugs. Also on display will be many kinds of antique painting techniques, such as reverse, stencilling, country, tray and tinsel painting.

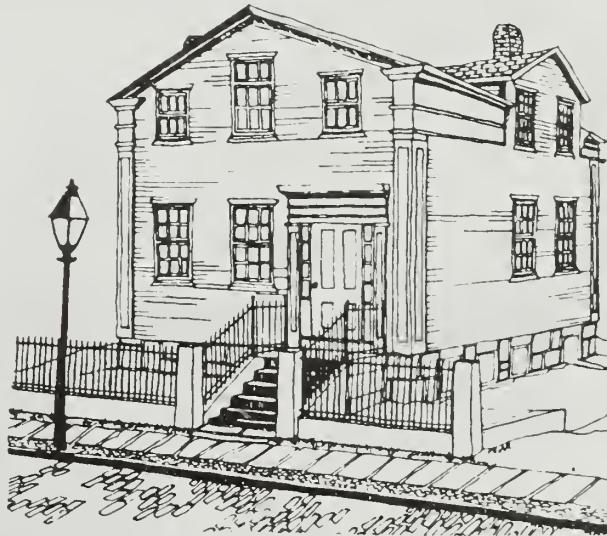

Entries will be judged on their authenticity and appropriateness to the theme of the show, but no prizes will be awarded.

All work will be fully insured by the Art Center. A fee will be charged to all entrants to cover the cost of the opening. For more information call the Art Center at 748-1266.

Classes: Belly dancing classes will be starting soon. Please call the Art Center for details.

Women's Alliance

The Women's Alliance of the Unitarian Memorial Church, Fairhaven, will hold a luncheon meeting on Saturday, April 7, in the Parish House at 1:00 P.M. Miss Dorothea R. Paull, president, will welcome invited

African Violet Show

The Moby Dick African Violet Club is presenting their sixteenth annual Judged Show of African Violets on April 7. It is being held in the parish house of the Mattapoisett Congregational Church, Mechanic and Church Streets.

The public is cordially invited to attend between the hours of twelve noon and 6:00.

There will be an educational display of "dos and dont's" for the growing of these most popular house plants.

Girl Scouts

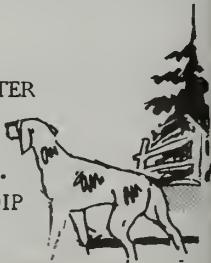

"SPRING SING"

Girls and adults are invited to come to a "Spring Sing", sponsored by the Plymouth Bay Girl Scout Council, at 2 P.M. Sunday, April 8th, at the Keith Junior High School. Anyone interested in finding out what Girl Scouting is all about is welcome to attend.

Post Road, Mattapoisett, has been elected a representative of her class of 1981 and will serve on the Student Congress of Providence College.

The Student Congress is the only organization at the Dominican college that represents the entire student body, which numbers approximately 3400. The sole purpose of the Congress is to represent the interests of undergraduates in all facets of campus life, ranging from student rights to academic matters.

Miss Quinlan is majoring in business marketing at Providence. A graduate of Old Rochester Regional High School, she is also the treasurer for her Dormitory Council.

Ice Show

"EVENING ON ICE"

An "Evening on Ice", an exhibition of club skaters and featuring guest skaters who are regional and national competitors, future Olympic stars, will be held Sunday, April 8th, at 6 P.M. at the Hetland Memorial Rink, Hathaway Boulevard, New Bedford. This exhibition is sanctioned by the United States Figure Skating Association. Tickets are available at the door and from club members.

Photo Contest

ROCHESTER 300

The Rochester Historical Society wants to remind all local amateur photographers that there is a one hundred dollar cash prize offered for the best photo of Rochester - in two categories: Black and white or Color. The theme of the contest is "The Enduring Beauty of Rochester" and is part of the 300th anniversary celebration for the town.

Photos must be 3 x 5 to 12 x 18 - mounted or matted, of a contemporary Rochester scene - including a photo of some of the festivities for Rochester 300.

The photographer must be an amateur from Old Rochester - that's Marion, Mattapoisett,

Wareham and Rochester. Entries may be left at the Rochester Town Hall; in the Conference Room you'll see a box for the purpose; or left with any Historical Society member or with the manager of the contest, Jody Smith.

All the entries will be displayed at the Joseph Plumb Memorial Library. A board has been prepared, and is waiting enough entries to make a good display. The contest closes August 15th with prizes to be awarded at a showing on Labor Day weekend. But, we'd like entries right away, so that the display of photographs will be as much a part of Rochester 300 as is the prize money!

Warrant Study

Barbara Ketchel, Legislature Chairperson of the Mattapoisett Woman's Club, has announced that the annual study of the Town Warrant will be held this year on Thursday, March 29th, at 7:30 P.M. in the Town Hall. Husbands are invited to attend this informative session.

Stephen Lombard, Executive Secretary to the Board of Selectmen, will be present to explain and clarify the warrant. Selectmen R. William Blasdale and John N. DeCosta also hope to be present to answer questions.

Mattapoisett Track Club

POLAR BEAR CLASSIC

The second annual Polar Bear Classic, a 5.3 mile road race through the streets of Lakeville, was well attended by local runners. Completing the run in the rain were Debbie Cattley, Justine Whelan, Kathy Caswell, Sara McIntire, the David McIntires (father and son), and Jim and Frankie Gouveia. Sara McIntire and Kathy Caswell finished second and fourth respectively in the open women's division with times of 34:40 and 37:00 minutes.

Spring Ball

LIBRARY ASSOCIATES

The Southeastern Massachusetts University Library Associates cordially invite one and all to celebrate spring while helping the SMU Library at their Fifth Annual Spring Ball on Saturday, April 7. The semi-formal gala will be held in the Residence Dining Hall adjoining the SMU Campus Center in North Dartmouth.

The Ball will feature dancing to music by the Steve Derek Quintet from 8 P.M. to midnight. During the evening, members of the SMU Theatre Company will perform, cabaret-style, songs from three Broadway musicals: "My Fair Lady", "Camelot", and "Guys and Dolls". A reception hosted by SMU President and Mrs. Donald E. Walker and a prime rib dinner will precede the Ball beginning at 6:30 P.M.

Proceeds from the event will benefit the SMU Library. For further information and table reservations please call 999-8009.

PUPPET WORKSHOP

Beginning Saturday, April 7th, the Children's Museum will offer a nine week puppet workshop conducted by new Trustee, Mrs. Karen Ragsdale.

The class will include the complete experience of making fabric and papier mache hand puppets, writing an original script, designing and creating the backdrop and scenery, and performing the final show for an audience. The class is open to interested and creative children ages 8 and up. The class will be conducted from 10:00 A.M. to 12:00 Noon nine Saturdays, beginning April 7th and omitting April 21st and May 12th. The class will meet at the Children's Museum in Russells Mills. The final performance will be given on June 16th. The class will be limited to 10 children. All materials will be provided. For children interested in theatre, performance, art and creating, this is an exceptional experience of professional quality.

Nursing Services

MATTAPoisETT DISTRICT NURSES

"We give home care," -- this is the most important fact the public should know about the Mattapoisett District Nurses, it was revealed in a statewide public information poll conducted this month by the Massachusetts Association of Community Health Agencies.

The non-profit Medicare/Medicaid certified agency for home health care in Mattapoisett reports the increased use in visits by the physical therapist, occupational and speech therapists as well as a dramatic increase in the number of home health aide hours and nursing visits to the home-bound.

According to Margaret A. Sylvester, RN, administrator of the District Nurses, community health services include: clinics, blood pressure, immunization and senior citizen; communicable disease prevention; maternal and child health services; mental health supervision and nutritional counseling.

In the area of health promotion and pre-

vention, Mrs. Sylvester reports that the Agency has daily office hours from 8 to 9 A.M. for blood pressure and health counseling.

The agency made 2812 nursing visits last year and provided 1657 home health aide hours.

Learning Disabilities

Dr. Lawrence Lieberman, Chairman of the Special Education Doctoral Program at Boston College, will address the topic of "Juvenile Delinquency and Learning Disabilities" in the cafeteria at Old Rochester Regional Junior High School on Thursday, March 29, at 7:30 P.M. The lecture, sponsored by the ORR Chapter of Massachusetts Association for Children with Learning Disabilities, will discuss the problems of the Learning Disabled Child, in fact all children with problems and why they should receive immediate attention.

Dr. Lieberman received his doctorate from Columbia University in the field of Special Education. From 1970 to 1973 he served as Learning Disability Coordinator for the U.S. Office of Education in Washington, D.C. He studied Pediatric

Neurology on a Post-Doctoral Fellowship at Tufts New England Medical Center in 1973 and 1974. He has served as chairman of the Special Education Doctoral Program at Boston College for the past five years.

The lecture is free and open to the public.

LEARN TO SWIM

"The best time to start developing good health habits is when one is young. That's one reason why the New Bedford YMCA is offering a special, 4-day Learn-to-Swim program for youngsters between the ages of 6 and 16", Thomas Barker, Youth Director of the YMCA, said today. Classes will begin April 17 and continue through April 21. Four classes will be held beginning at 9:00 A.M. Other classes will meet at 10, 11 and 12:00. The cost of the lessons may be credited toward a full membership if purchased during the va-

cation week. Swimmers must have a bathing suit and towel and should arrive 15 minutes early.

"Swimming is one of the finest of all exercises, bringing into play every important muscle in the body," Mr. Barker said. "It also has the added advantage of being a sport one can begin at an early age and continue just about all one's life."

In the Y's special Learn-To-Swim program the young participants will be introduced to the water, taught fundamentals of breathing, floating, swimming strokes and safety practices.

Mr. Barker pointed out that the classes are open to boys and girls who are not members of the Y. Y members receive swimming lessons all year. The teachers are trained YMCA instructors, using the most modern Learn-to-Swim techniques.

ARTICLE 18

In order to inform Mattapoisett voters what this article is about and why it is being brought up a second time, after being approved by the Town Meeting a year ago, we endeavor to furnish the following "background" information.

1. There has been a road or access-way leading into the old gravel pit for well over 50 years.

2. The Rochettes bought the inner half of the gravel pit along with their house lot above. The lower lot is only accessible by a steep gravel ramp or path which was built for that purpose.

3. All old timers told us that the access roadway leading into the gravel pit had been used by townspeople for years as a "right-of-way". Only Mr. Nunes, the Highway Surveyor, took exception and said there was no "right-of-way".

4. Before installing the large gasoline tank in back of the highway garage, the Selectmen held a hearing, inviting the two interested families -- the Johnsons and the Rochettes -- to present any objections. Mr. Rochette's only stipulation to his agreement for the tank to be installed was the preservation of his right-of-way. The Selectmen agreed verbally to his request.

5. The gasoline tank was delivered, left across the right-of-way. When its installation was delayed due to drainage problems, we requested Mr. Nunes to push it over some ten feet. He refused, saying it might "dent" the tank.

6. The next year (1967), after town employees at the Town Hall objected to the noise from the dogs in the newly installed pen just outside the Town Hall, Mr. Nunes was asked to move the pen. He carefully installed it completely blocking the access roadway to our land. This occurred just after we had cleaned up the roadway in preparation for trucking soil in. The pen remained there about a week. After the second of two almost sleepless nights from the barking of the dogs, we threatened a law suit. The Selectmen had the pen removed. Mr. Nunes was away and unavailable at the time.

7. Within a short time Mr. Nunes retaliated. The noise of the bulldozer, power saws, and dump trucks continued almost unabated for some ten days. The damage and destruction were terrific. Only a fringe of trees were left of the original natural barrier between the work area and our property. All this occurred next to residentially zoned areas, but neither the Conservation or Planning Boards raised a protest. The original access-way, which was a woodland path most of the way, was obliterated. Junk, sections of stonewalls and a derelict street-sweeper were placed across what was the original roadway within less than 50 feet of our boundary line. All the cement drain pipes, originally near the town barn, were scattered along the edges of the appropriated land to make it look "used and needed". Land was filled over and raised, illegally changing the drainage so that it now flows on to private land, and an illegal dump was created of rubble, an old safe, old electric service panels, and other such matter almost on the edge of town land adjacent to our property. All this has allowed a much larger sink hole of water to form in

"Article 18: REPEAL OF EASEMENT: To see if the Town will vote to revoke the license or easement given to Joseph E. Rochette and Margaret D. Rochette to cross over land of the Town; which license was granted by a vote of the Town Meeting on April 3, 1978, or take any other action thereon. (Highway Surveyor)"

ILLEGAL DUMP AND
DEBRIS ON EDGE OF
TOWN LAND WITH-
IN 50 FEET OF RESI-
DENTIALLY ZONED
PRIVATE PROPERTY.

the depression on town land just below us, creating one of the worst mosquito breeding areas in town. This did not dry up until June and was almost impossible for the mosquito control agent to properly service.

8. We took the Selectmen on a tour of inspection of the town land, showing all the damage that had been done. I am sure that they had not been asked or granted Mr. Nunes permission to do what he did, or for him to appropriate all this town land, which was much more than he needed. To avoid an expensive law-suit, the Selectmen authorized us to insert an article in the Town Warrant last year to allow us to have access to our land -- this to be for our lifetime use, but which could be rescinded by vote of the Town Meeting. It was voted favorably. Mr. Nunes never concurred or cleared a passage-way. In fact, at a joint meeting with the Selectmen and our counsel, a letter from Mr. Nunes was presented requesting the Selectmen not to honor the vote of the Town Meeting but to defer any action until the next Town Meeting was held. Town Counsel advised them to agree to his request, forcing us to go to court.

9. Judge Francis W. Keating of the Superior Court in Plymouth ruled in our favor, ordering defendant Manuel Nunes "to re-

move all the rocks, pipes, stones, sand, equipment and other items from the area of land subject to the use of the plaintiffs". Mr. Nunes has not even fully complied with this court order, merely making a gap between the big pipes and the junked street-sweeper hardly adequate to get a truck through, nor did he restore a firm roadway. A car or truck could get stuck in the loose fill left here.

We feel that this article to rescind our right of access, previously voted by the Town Meeting, should not be passed for the following reasons:

1. The access roadway which had been in common usage for over 50 years should never have been questioned or blocked off.

2. The verbal agreement made with the Selectmen four years ago at the hearing on the installation of the gasoline tank behind the town barn should have been honored, even if it was "not in writing".

3. The 1978 Town Meeting voted to grant the "right-of-way".

4. Justice Francis W. Keating of the Superior Court in Plymouth ruled against Mr. Nunes and enjoined him from interfering with our right to pass over town land.

Signed: J. E. Rochette
4 Wildwood Terrace, Mattapoisett

REPORT OF THE Public Safety Building Needs Committee

The Public Safety Building Needs Committee was appointed to study the needs of the Police, Fire and Water Department operations, space and locations and to make recommendations to eliminate their current problems. The committee met on November 3, 1977 and visited the following departments to acquaint themselves with the operations and facilities of these departments.

The Police Department, which comes under the direction of Chief Tuttle was the first. This department operates three cars, two patrol cars and one detective's car; two ambulances, one for transporting patients and the other for emergencies. The area in which the police station is located is in the rear of the Town Hall where the parking facilities are practically nil. They should have an area for parking at least five impounded cars and five for citizen parking and ten for personnel. Space should be available inside for parking the two ambulances so that when they are needed they are in a condition to accept patients in a warm vehicle. At present there is room for parking only one ambulance inside and that in a partially heated area.

A 1,000 gallon underground tank is required for gasoline storage which should be at least 25' away from any building. Emergency generator is required and one located in the rear of the building gives auxiliary power for the operation of radios, lights, etc. during emergencies. This generator does supply some electricity to the Town Hall area also.

The department operates three shifts, each consisting of one radio and telephone operator and three patrolmen to operate the cars. Shifts work from 8 A. M. to 4 P.M., 4 P. M. to 12 P. M. and 12 P. M. to 8 A. M. At the present time there are fifteen full-time personnel and ten part-time. All cars have Motorola high band radios that come into the control center along with Civil Defense, Fire Department, 911 telephone service, state police, New Bedford police, Mattapoisett police and the old police wave lengths which they can use, and the local government band which operates the town Water Department and Plymouth County police and fire. The one operator operates all these plus the separate burglar alarm systems transmitted into the police station and also transmits the fire calls as well as taking care of citizen's requests in person at the station. All of this is done in a very small room: 8' by 16' which is inadequate and confusing when others are in this room and with conversation going on. The entire area used for police at the Town Hall has really no room for storage. There are one closet and nine lockers for the police where there should be at least fifteen or more. Cabinets for radio equipment and radio room should be in a restricted area. Officer's rooms also enclose the public toilets for both men and women and if they are in the process of working on a case, anyone from the outside wanting to use the facilities has to go right into the same office. In addition, there is a serious problem in the winter with no heat in the toilets and water must be kept running in order to prevent freezing. In this same room is the radio charger for the portable radios and the nine lockers for individuals which are shared three to a locker, which is not satisfactory. The Civil Defense room is also used for parts and storage and the boiler room is part of it. The station has no cell block. Prisoners must be transported to Wareham.

An addition was built on the rear of the building eight years ago, which consists of the sergeant's office, interrogation room and chief's office. In all of these offices there are supplies piled, such as clean linen and medical supplies for the ambulances, office supplies, ammunition and evidence picked up by the police such as drugs. Every possible space in these small offices is piled with material for storage.

The interrogation room consists of a small desk and two chairs. There is no room for a third person. This room also is used for storage of evidence. In the chief's office most of the files and police records are kept along with many other cartons and boxes of material being stored. The personnel files are also kept in this office.

In summing up, the conditions under which this department must work are deplorable. There is just no room for good operation and they definitely need larger quarters.

The second survey was of the Fire Department. The Central Fire Station under the direction of the Board of Fire Commissioners and Fire Chief Paul Bradley is on the corner of Barstow Street and Route 6. This is a three door station. At the present time the apparatus housed there is a 750 gallon Ward LaFrance pumper which carries 400 gallons of water, a 500 gallon Maxim pumper with Ford chassis which carries 800 gallons of water, a 1000 gallon Farrar with Ford chassis which carries 1000 gallons of water and one Ford emergency truck. As there is no additional room, the new rescue truck must be parked out doors. These pieces of equipment respond to all fires. There is not enough room to keep the equipment inside as it should be under winter conditions. In addition, in this area there is a portable generator that supplies electricity in the event of power failure, the wire truck trailer and one electric hose dryer. All of this is stored in an area 50' x 60'. In the rear corner is the fire alarm equipment, one Gamewell five circuit panel, which is used in the same area with the fire trucks. Underwriters' requirements call for a separate, fireproof room. There is a small storage room and toilet and the stairway to the second floor which uses every inch of available space. On the second floor is a small storage room which was supposed to be used as an additional bathroom, but is now storage room. The Fire Chief's office is on this floor in a small area under the eaves and is also used for storage, a very poor location for a chief's office. Actually, it is not an office.

At the rear of the station is housed the air tanks and the compressor for the operation of the fire whistle. The ten thousand watt generator is also housed in this area. The radio station is tucked away in a small corner. This is used in the event that wires are down and fire alarm cannot be transmitted. The boiler room for heating is located in the corner of this building with access from the outside. Again, this department must operate in a very small area which prohibits the best efficiency, especially at the time of an alarm. Also, there is no parking area at this station for the call men who must respond at the time of fire, nor is there parking space for a citizen to stop at the station.

The last visitation was to the Water Department which has a small cottage type building on Church Street consisting of a very small office and area for keeping records. Storage for water meters, etc. are in an area such as a small closet. There is no place for repairing, testing, etc., in this building. They have two $\frac{3}{4}$ ton utility body trucks used in their work. One is taken home by the driver and left out year round. There is one trailer with air compressor and one utility trailer. The copper tubing used for connections has to be stored in the attic of this office building. It is difficult because of its size and weight to get into this area, but it is felt it should be in a protected area and not out at one of the stations which would be vulnerable. There is one small toilet for both men and women. There is no storage room of any size for pipes, tubing, equipment or work, especially meter testing and repair. Again, this department operates with their equipment widely distributed.

A visitation was made to the four pumping stations and information regarding these is as follows:

Station 1 is located off River Road on a right-of-way that leads within a few hundred feet of Route 195. This station is inoperative due to the fact that Route 195 passes through the well fields that were used and therefore pumping was discontinued. At this time this building, with a small cyclone fence around one end, acts as a storage area for cast iron pipes, cement pipes and castings such as manhole covers, shutoffs, etc. The building itself is used for a repair shop for the meters and storage of shutoffs, emergency repair parts, special tools, including hydraulic pipe cutters, field lathe and other items used in the department. It is in an isolated area with no one able to keep a watchful eye on the equipment. Most of the equipment is stored outside. A small oil heater keeps the building at a low temperature for heat when working on repairs.

Station 2, built in 1926, is a building 16' x 14' with 220 AC operating a 20 h.p. pump which pumps 12,000 gallons of water per hour and one vacuum pump and tank which leads out to 28 field wells with $2\frac{1}{2}$ " lines. The small building is heated by gas. All feeds

are brought into a 10" main for distribution. New pump, vacuum system and electrical controls were installed in the building in 1969.

Station 3 is in Tinkhamtown, built in 1953, a brick building, one story, 20' x 18'. This has 440 AC operating 40 h.p. electric pump and pumps 34,800 gallons per hour with an auxiliary gas-fired Dodge engine which can in emergency give 75% of the output of the electric equipment. This pump pumps into two mains, one going directly down toward the North Street water tank and the other going to Station 4 as a bypass connection and to the balance of the system via 12" main in Acushnet Road. The building is heated by a small propane gas heater.

Station 4 is the newest building, 16' x 14' and operates on 440 volts AC a 60 h.p. pump, pumps 700 gallons per minute or an average of 39,000 gallons per hour. There is an auxiliary pump consisting of one Waukasha engine which will supply the same amount of water as the electric pump. Also connected to this Waukasha engine is an AC generator with an output of 110 volts AC which supplies electricity for lights, etc. This auxiliary engine is operated by propane gas with underground gas storage, and again this building is heated with a small propane gas heater. This water supply is pumped into a 12" main which goes directly to the standpipes located on North Street and on Marion Road.

The standpipe on North Street was built in 1913 and holds 330,000 gallons of water and is supplied by the 12" main on North Street. The second water tank was built in 1965 on Marion Road, capacity 500,000 gallons, and supplied with a 12" main.

A small rented garage on Barstow Street houses the air compressor trailer, utility trailer and additional equipment and in emergencies these must be picked up at this location. Other parts are stored in the pumping station. One truck is now housed in this garage.

Major department problems with present facilities and methods of operation are as listed.

1. Storage of tools, equipment, emergency repair parts and meter repair and testing, all supplies and limited shop facilities are scattered throughout the various pumping stations and the office, due to lack of proper base facility. No storage is provided for garaging except for one rental stall recently acquired in center of town, which now houses one truck, two small trailers, an old air compressor and some signs and barricades.

2. Disadvantages daily encountered — necessity to travel miles between various points in order to assemble stock, necessary parts and tools to perform even daily routine tasks, resulting in loss of time, expenditure of fuel, wear and tear on vehicles and poor stock control.

3. Emergency condition disadvantages — in addition to the foregoing, considerable delay in making emergency repairs such as to a broken water main, resulting in added expense to the Town and additional inconvenience to those consumers who are without service until repairs can be completed.

4. Added dangers — during periods of heavy rains the long dirt road to the No. 1 station often becomes impassable. Inasmuch as this is by necessity the major storage area for emergency repair parts, this constitutes a serious disadvantage during an emergency. This station is also vulnerable to heavy snow storms and vandalism.

In conclusion, if the Water Department could be centralized in one location with all its equipment, it would be a considerable saving to the Town in man hours, mileage, wear and tear on the vehicles and quicker service in emergencies.

After surveying the three departments it was the unanimous vote of this committee that there is a definite need for a new Police and Fire Station and that the present fire station should be turned over to the Water Department.

BALLET HISPANICO OF NEW YORK AT SMU

The Ballet Hispanico of New York, under the direction of Tina Ramirea, will perform in the main auditorium at Southeastern Massachusetts University on Sunday, April 1, at 7:30 P.M.

The company combines ballet, jazz, and modern dance in a repertoire that reflects the Spanish, Caribbean, and Latin cultures of Spanish-speaking Americans. The company has toured nationally and has just returned from its first foreign tour.

The Ballet Hispanico will perform four dances: "Danse Creole", based upon dances from Trinidad; "Impressions", a study of religious fanaticism; "La Boda de Luis Alonso", a combination of various wedding dances; and "Echoes of Spain", which combines some of the major dance styles that influence Hispanic culture today.

The evening is sponsored by the SMU Cultural Affairs Committee, which has

presented such events as "The Boston Camerata" and the Hartford Symphony. Tickets may be reserved by calling 999-8548 or purchased at Uncle Ernie's Corner in the SMU Campus Center.

The SMU main auditorium is best reached by parking in lots 4 or 5.
